Live more outdoors

Dreaming of a nap in the sun? A refreshing snack with friends? A moment alone in the shade? Your dream is waiting at home, in whatever size space you have. With your imagination and our wide outdoor offering, your dream is covered, whether it's about dining, lounging, cooking, gardening, storing or having laundry help. Let's see what your outdoors can do.

Serve up fun

There's something memorable about being outdoors while cooking a meal and spending time together. It's like food tastes better in the sunshine. Maybe it's being closer to nature — we're not sure. But we are sure that from dining tables and chairs to barbecues and gardening stuff, we have all you need to enjoy cooking and eating outdoors. Plus, it's all under one roof, whether you'll put it under a roof or not!

Take it easy

When you're outdoors, it's easier to slow down and practice the art of doing nothing. Whether you're on your balcony, at the beach or in your garden, you can make the outdoors all yours. From modular sofas, hammocks and chaises to umbrellas, lights, textiles and everything in between, we have what you want in styles you'll love for an outdoor oasis you won't want to leave.

How to furnish your outdoor space

You'll be spending time in your great outdoors in no time! Get started exploring the possibilities with these general tips. The next page has specific info for smaller and larger spaces. Remember the furniture and pieces we're talking about are those designed for outdoor use – and they're all in this buying guide. Sketch a floorplan with dimensions as a handy tool to figure out what fits. Then follow our helpful hints:

Save time and space

If you use your space occasionally or if you want a nice space without investing much time and energy: Choose light-weight, stackable or foldable pieces that are easy to bring indoors. Protect them with water-proof covers if you can't store indoors.

Plants and flowers

Plants and flowers bring nature closer to you. Artificial plants have the same effect if the weather (or your desire) isn't growing friendly.

Rugs and flooring

Rugs and flooring can change your space's look. They help make whatever "ground" you have more comfortable and your space easier to clean.

Lighting

Lighting encourages being outdoors as much as possible in dark nights and seasons. It adds ambience and looks nice even when you're indoors.

Cushions

Cushions show off your personality. Mix and match colors, sizes and patterns on sofas and chairs for decorative touches and soft, supportive padding. Protect them in storage bags/box when not in use.

Follow your style

Extend your indoor style to your outdoors. This creates a strong visual and emotional connection.

Material matters

Material choice is tied to likes, wants and needs. If you like wood, remember it needs some maintenance every now and then. Plastic, steel and aluminum are easy-care options.

If your space is exposed to lots of sun or moisture: Protect your furniture as much as possible. This is especially true for wood but also applies to steel, plastic and aluminum – even though these materials better withstand sun and moisture. Regardless of material, protecting furniture helps it last longer.

Shade and protection

If you need shade/protection from ultraviolet rays or if you want privacy: Look for umbrellas, canopies, nets, or privacy screens to suit your needs.

How to furnish a smaller space

No outdoor space is too small for watching the clouds come and go. The most important smaller space furnishing advice is ask yourself what you like to do. How about nap, read a book, exercise, eat, hang out?

Which of these can you — and would you love to — do in your smaller space?

1. Enjoy me-time or socialize a bit

Your favorite comfy seating is key — armchair, small sofa, reclining chair, hammock? Once you're covered, add options for guests like foldable chairs, stackable stools and pouffes. With a modular one-seat section and stool, you get a chaise that doubles as separate seats for you and a friend whenever needed.

2. Savour your meals

Start with a two-seat dining set. If you don't have room for a set, buy individually. A stool as side table or even a storage bench works if you just want a spot for a snack or drink.

3. Store your necessities

If you can fit a storage bench, you'll get seating (and a side table), too. Boxes, hooks, shelving units and cabinets are also good helpers to keep things outdoors like laundry pegs and hangers.

All the above!

If you can dream it, you can do it. Prioritize what you do (or want to do) the most. Creating space for your favorite activity means you're more likely to truly use your outdoors as part of your home.

How to furnish a larger space

For a larger outdoor space as comfy as your most-loved indoor space:

1. Set up the centerpiece

Choose and position your largest furniture first — like a modular sofa or dining table. This way you know it fits. Then work around it as a focal point.

2. Create activity zones

Arrange pieces into areas based on relaxing, dining, cooking, playing, etc. To enhance the room-within-a-room feel, use rugs, flooring, lighting, and privacy screens.

3. Make everyone feel at home

Give your family and your guests options. Think lots of seating, cushions and places to put their things. Remember children have their own needs, too.

4. Keep things close

Spend less time running back indoors. Shelving units, storage benches, cabinets, boxes and hooks can conveniently hold serveware, cushions, toys and more.

In a larger outdoor space, there are many possibilities. To help narrow your options, think about your favorite indoor spot. What makes it cozy and functional? Repeat as much as you can outdoors!

Outdoor dining

Create a dining recipe

Nightly treats on the balcony. Weekend brunches on the patio. With an outdoor dining solution, you always have an open table with good views and great company. We have tables, chairs, benches and stools that will fit your needs and dreams in any size or type of outdoor space. You can get the look you want and the level of maintenance you desire, too, since we offer lots of styles, colors and materials. No matter what you choose, your outdoor meals will surely include some greens!

Meet our favorites

Ready to dive into the world of outdoor dining furniture, but don't know where to start? We've collected some of our favorite families here, so you can get an overview of their looks and benefits. Then you can learn more about functions, sizes, materials, colors and prices on the following pages to create the dining combination that's right for you.

ÄPPLARÖ is made from durable, sustainably sourced acacia and has options for all spaces, like foldable pieces for small balconies and extendable tables for large yards. We have a little extra love for ÄPPLARÖ — just don't tell the other outdoor furniture! Why? It's our biggest series that can do it all from dining and cooking to lounging and storing. For seating, there are foldable chairs and stools, armchairs, reclining chairs, chaises, benches, bar stools and modular sofas. Tables come in different functions and sizes like gateleg, drop-leaf, square, bar and ones designed for balcony walls.

There's a cart, storage bench and a wall panel, too, so you can prep and serve food and keep everything tidy and organized. If you're lost in a sea of outdoor choices, we think ÄPPLARÖ is a pretty good start — especially since you can always add more pieces if your needs and dreams change.

SJÄLLAND has high personalization and low maintenance with durable options in eucalyptus, aluminum and glass. It has two sizes to fit larger and smaller spaces.

BONDHOLMEN is our dining and lounging series in a traditional style, inspired by how furniture was made in the past, with handcraft details and generous dimensions. Made of high-quality, sustainably sourced eucalyptus that is stained gray for beauty and added protection. Read more about the story of BONDHOLMEN on pg.18.

TÄRNÖ is foldable, durable and lovable with its mix of durable, sustainably sourced hardwood acacia and powder-coated steel. The wood is stained light brown for beauty and added protection.

ASKHOLMEN is made of durable, sustainably sourced hardwood acacia stained light brown for beauty and added protection. It has foldable pieces to suit small balconies, too.

FALHOLMEN is made of durable, sustainably sourced hardwood acacia stained light brown for beauty and added protection. The chair can be stacked, which helps you save space.

SUNDSÖ is perfect for your balcony or other smaller spaces since it can be easily folded and put away. Comes pre-assembled — and is also suitable for business use.

LÄCKÖ is inspired by traditional wrought-iron garden furniture. Made of powder-coated steel or plastic rattan, all pieces are maintenance-free and easy to care for.

FEJAN is a space-saving dream with pieces that stack or fold. Durable and maintenance-free, it is made of powder-coated steel and plastic that's slatted for a wooden look.

TORPARÖ dining set comes in different sizes — choose to use it on a small city balcony or a large villa terrace. Durable, maintenance-free materials allow you to get the most out of your outdoor life!

The story of BONDHOLMEN

A tribute to handicraft and common sense

How can we make your life at home more comfortable with knowledge of how people lived in the past? One way is to look at traditional handicraft and historic everyday objects. Like designer duo Tina Christensen and Kai Legaard when they created BONDHOLMEN outdoor furniture.

Frilandsmuseet is an open-air museum in the northern outskirts of Copenhagen. Here Tina and Kai take regularly strolls to see how the average Scandinavian lived before there were Internet and mobile phones. "The museum is a treasure. There are houses and furniture from times when everything was created from a need and had a purpose. It's very inspiring," says Tina.

Timeless

In the old days, people had the same need as we do today; to work, relax and come together. BONDHOLMEN has generous proportions that make it comfortable to do that for a long time. "We wanted to make it easy to spend time in BONDHOLMEN. Eat, play games, reply to emails, have a cold drink or just talk. Whatever you want to do when you're in your outdoor space."

Function is in the details

Tina mentions that past generations had a particularly good eye for function; every detail was there for a reason.

"People were also very careful with the materials they had, and didn't use more than they needed. Back then, it was called common sense. Today it is a way of being sustainable."

In the BONDHOLMEN series the legs are angled for steadiness, the seats have a small edge in the back to keep cushions in place and the furniture is easy to put away when the outdoor season ends. Every piece of furniture is made of sustainably sourced and high-quality eucalyptus wood. It's details that make the modern outdoor life a little easier and more sustainable. For Tina and Kai it's also a tribute to old handicraft and common sense.

Children's outdoor furniture

Play all day

From hosting tea parties to racing airplanes, the outdoors are made for hours of doing, exploring, smiling and laughing. That's why we design and make easy-to-care-for outdoor furniture sized for children, too — from chairs, stools and tables to an easy chair, beanbag and picnic table. Most pieces are even created for indoor and outdoor use, and the plastic ones are lightweight so children can carry them without your help. Just clean them off and bring them back indoors when the outdoor fun is done!

Outdoor lounging and relaxing

Recharge your batteries

Picture your living room. Now imagine it outdoors. Whether that's a balcony, backyard or some sand at the beach, you can create a spot to chill out and recharge. With our wide variety of modular sofas and other seating, you'll find the right fit. For comfort, style and to really make your outdoor space feel like home, there are tables and cozy cushions. Before you get too comfy, just browse, dream and do!

Find your outdoor modular sofa style

How do you like to lounge? Are you a cozy snuggler on a loveseat? A lay-down, spread-out relaxer on a sprawling sofa with an ottoman? What size is your outdoor space? With a modular sofa, you can create a custom combination to suit your relaxation style and your lounging area. Plus, you can add sections later or easily disconnect and rearrange. We offer three series of fully modular outdoor sofas; SOLLERÖN, ÄPPLARÖ and JUTHOLMEN. With flexible HAVSTEN you can create an armchair, loveseat, 3-seat sofa or a sofa just as long as you like.

SOLLERÖN is made from easy-care, durable plastic rattan with same expression and feeling as natural rattan. Practical storage space under the seat. See more on pg. 42.

ÄPPLARÖ is made from durable solid acacia, a dark hardwood. Pre-treated with layers of stain, the wood needs a little care now and then for a long lifetime. See more on pg. 50.

HAVSTEN is flexible and durable with an airy frame of powder-coated steel tubes and plastic mesh seats. Easy to move, its comfy cushions and modern base are easy to care for, too. See more on pg. 56.

JUTHOLMEN is made of easy-care, durable plastic rattan and powder-coated steel with an airy weaving pattern in black-brown. See more on pg. 60.

HAVSTEN sofa

HAVSTEN is flexible and durable with an airy frame of powder-coated steel tubes and plastic mesh seats. Easy to move, its comfy cushions and modern base are easy to care for, too.

Hang out your way with flexible HAVSTEN

HAVSTEN sofa is comfortable, durable and flexible to suit you — and what you love to do. It's easy to move around thanks to its airy frame made of lightweight, sturdy powder-coated steel tubes. And it's easy to lounge in and care for because its plastic mesh seats are topped with fluffy cushions that resist sunlight and light rain. Whether an outdoor armchair is all you need or you want bigger than a 4-seat sofa, you can make it happen with HAVSTEN.

To make HAVSTEN really flexible, we completely separated its parts. But that makes it a little bit different. Although you build HAVSTEN based on sections, each one-seat section consists of parts you buy and pick separately. The seat and back are one part. The armrest sides are one part. As you add on one-seat sections, you will need supporting stands. One thing's the same. We've still made it as easy as possible to buy with our ready-made combinations. If you want bigger than a 4-seat sofa, look for add-on units.

Winner of the Red Dot Award 2017

HAVSTEN sofa has been awarded one of the world's finest design awards — Red Dot Design Award — in the category for product design. The prized sofa was designed to be truly flexible — easy to move around and use to furnish in different ways. It's made in powder-coated steel with fluffy, comfortable cushions that resist both broiling sunlight and light rain, and has detachable parts and materials so you can create your own favorite sofa under the open skies.

Outdoor armchairs, sofas and tables

Lounge with ease

Why limit your living space? You can easily create a lounge-worthy hangout outdoors, too. Start with seating like modular or solitary sofas and armchairs. Add in a coffee table or a side table, so you (and your guests) have a place to set down food and drinks. Then take a break from indoor life and take that book, board game, smart phone or snack into the great outdoors.

Outdoor comfort cushions

Stay a while

Make yourself comfortable for long naps and even longer meals with our thick, padded cushions. In a variety of colors, they add an extra splash of style to your outdoor seating. Many have fade-resistant color — thanks to how they're dyed — and are water-repellent, so you can shake off the water after a light, passing rain shower. Many of them have longer lives because you can flip and use both sides. Their ties and/or straps keep the chair cushions and pads firmly in place on the chair, too. And many cushions have removable, machine-washable covers for easy cleaning of melted ice cream.

JÄRPÖN/DUVHOLMEN and FRÖSÖN/DUVHOLMEN

Both the cushion covers of **FRÖSÖN** and the cushion family **JÄRPÖN** are sold separately from **DUVHOLMEN** inner cushions. Why? To make life better, of course! You can change up your outdoor look just by changing the cover. It'll take some time for its color to fade, because we dye the yarn in a way that makes color last longer (and uses less water). You won't slide around on your seat either, thanks to the fact that most of the **FRÖSÖN** covers have straps that keep the cushions in place and **JÄRPÖN** covers have anti-slip dots on the underside.

You can shake off water from a light rain, because **both** **JÄRPÖN** and **FRÖSÖN** are water repellent without the use of perfluorinated chemicals. If the cover's dirty, just wash it in the machine. And you can relax even more knowing that we make the cover fabric from a minimum of 90% recycled polyester, which reduces the use of new raw materials and lowers its environmental footprint.

In addition, **JÄRPÖN** cushion covers have a piping that makes them different in design. Each cover also has a padded inlay that increases your seating comfort.

JÄRPÖN/DUVHOLMEN

JÄRPÖN cushion covers: 100% polyester. Underside: Polyester, synthetic rubber. **DUVHOLMEN** inner cushions: Filling; polyester wadding/polyurethane foam. Do not wash. All textiles shown are imported.

KUDDARNA

KUDDARNA chair cushions, seat/back cushions and back cushions add a traditional look to outdoor seating and have ties to stay firmly in place. They all have longer lives, since they can be turned over and used on both sides. Their fade-resistant fabric is dyed in a more sustainable way that also makes the color last longer in the sun, too.

This dyeing process reduces consumption of water and dye while improving color fastness compared to traditional dyeing techniques. The seat cushion has a removable, machine washable cover.

Decorative cushions and throws

Enhance your style

Show off your personality and get just-right extra padding. Whether you're after a subtle touch of color, an impactful pop or an eye-catching pattern, we have plenty of outdoor decorative cushions to choose from. We design them for the outdoors, so most are fade resistant from a dope-dyeing process that's more friendly to the environment. And most are water repellent, too — just shake off the water after a light, passing rain shower. To keep them clean and protected when they're not in use, we recommend TOSTERÖ storage bags and storage box or VRENEN storage box.

In/outdoor cushions

These cushions are designed for the outdoors. So you can just shake off water from a light rain, as the cushion cover is water repellent. And the color stays

fresh for longer as the fabric is fade resistant. You can use them indoors as well.

How to mix and match with cushions

Want to make your outdoor sofa as cozy and stylish as your indoor sofa? Create a cushion combo! Here's one way to do it that's as easy as 1, 2, 3 with our range of

in/outdoor cushions. They're designed to coordinate, so it's simple to group them together.

1. Start by choosing a base of comfort seat and back cushions in your favorite neutral color. These are thick, padded, bigger cushions with covers like FRÖSON on pg. 71.
2. Add a solid color or two.
3. Pick a pattern like stripes, buttons or abstracts. Look for decorative cushions like GULLBERGSÖ or others on the facing page. Now take a seat and relax!

Helpful hints:

We're talking mainly covers here. You'll need the corresponding inner cushions or pads, too. If you're feeling adventurous or fall in love with a pattern first, reverse the order of the steps.

Umbrellas and privacy screens

Add shade and privacy

Enjoying life outdoors means being exposed to all of nature's pros and cons — not to mention neighbors or city life in general. Umbrellas help shield you from the elements and provide ultraviolet (UV) protection. Some of our umbrellas are water repellent, so you're protected against a light, passing rain shower. Privacy screens help keep eyes away to give you more peace of mind.

All our umbrellas have polyester fabric with UV protection. Here's what our different sun protection scales mean:

UPF 50+

Excellent protection 50+ fabric has a UPF (Ultraviolet Protection Factor) rating of 50+, which means it blocks 98% of the ultraviolet radiation.

UPF 25+

Very good protection 25+ fabric has a UPF (Ultraviolet Protection Factor) rating of 25+, which means it blocks 96% of the ultraviolet radiation.

UPF 15+

Good protection 15+ has a UPF (Ultraviolet Protection Factor) rating of 15+, which means it blocks 93% of the ultraviolet radiation.

Please be aware: The umbrella does not provide protection against reflected or scattered solar ultraviolet radiation.

For easier care and longer life

To make an umbrella canopy that could be cleaned in the washing machine, we took one apart. KUGGÖ, BETSÖ and OXNÖ umbrella frames consist of the pole and the canopy's ribs. They can tilt too! LINDÖJA and VÄRHOLMEN umbrella canopies easily fit onto KUGGÖ,

BETSÖ and OXNÖ umbrella frames. The detachable canopy comes in beige, black or dark blue, so you can change up the umbrella's look. Add a base for stability, and you're ready for lazy days in the shade.

How to build an umbrella

First decide if you wish to have a "standing" umbrella, KUGGÖ or BETSÖ, or a hanging umbrella, OXNÖ. The choice depends on how much space you have and wish

to shade, but also which look you prefer. A hanging umbrella has the advantage of no pole that blocks your view or gets in the way.

How to combine

In below overview you'll find which umbrella canopies and umbrella frames are sold separately and are possible to combine. To make it as easy as possible for

you, we have also created ready-made combinations. You'll find them all on the previous spread, pg. 80.

Outdoor lighting

Light a cozy night

Just because the sun goes down doesn't mean the fun has to stop! Turn on the lights wherever you are and set the mood you want with outdoor lighting. We have lamps — pendant, table, floor — lighting chains and lanterns. Almost all of our SOLVINDEN lighting uses solar cells to transform sunlight into electricity, so they won't add to your bills and don't use untidy cables and plugs.

Outdoor flooring and rugs

Transform your space

If you've ever unrolled a new rug or redone your indoor flooring, you know the difference it can make. The same goes for your outdoor space. Instantly upgrade your balcony, section off an area for dining, or give your feet a break from the heat with outdoor rugs and any of our floor decking for outdoor use. In a variety of sizes, bold patterns and neutral colors, there's a rug to suit your style. UTLÄNGAN, RUNNEN, MÄLLSTEN and ALTAPPEN floor decking are easy to install by clicking the parts together. MÄLLSTEN and RUNNEN can even be combined to create your own unique look. Mix and match different colors and materials of RUNNEN and MÄLLSTEN — the possibilities are endless.

Outdoor flooring

Quickly create a personal look with our range of outdoor floor decking in different materials and colors. They click together so it is easy to upgrade your outdoor flooring. You can even combine

MÄLLSTEN, the new Marrakesh-style floor decking in weatherproof porcelain, with RUNNEN in different colors and materials to enhance the unique look.

Create your personal outdoor flooring

	ALTAPPEN	RUNNEN	RUNNEN edging strip, RUNNEN corner strip	MÄLLSTEN
Can be combined with:	ALTAPPEN	RUNNEN, MÄLLSTEN	RUNNEN, MÄLLSTEN	MÄLLSTEN, RUNNEN
Size:	11¾×11¾"	11¾×11¾"	11¾×11¾", 1½×11¾"	11¾×11¾"
Package quantity:	9 pieces	9 pieces	4 pieces (edging strip), 2 pieces (corner strip)	9 pieces bottom part + 9 pieces top part

Calculate how many packages you need:

To calculate your outdoor area, multiply the length by the width.

Example: W3'×L5' = 15 ft²

Calculate any areas to be subtracted from the total area, e.g. for pillars or corners.

Example:
Corner W6"×L1' = .5 ft²
15 ft² - 0.5 ft² = 14.5 ft²

Divide the sum by 0.81 for the square tiles and round up (to ensure enough floor decking):

Example:
14.5 ft² ÷ 0.81 = 17.9 ft²
Rounded up to 18 packages.

Here is a guide with ready-made calculations:

Size of area	Number of packages
26.16 ft ²	3 packages
61.04 ft ²	7 packages
78.48 ft ²	9 packages
113.36 ft ²	13 packages
130.8 ft ²	15 packages
200.56 ft ²	23 packages
218 ft ²	25 packages
270.32 ft ²	31 packages
322.64 ft ²	37 packages

RUNNEN and ALTAPPEN floor decking can be cut to fit it around a corner or a pole.

Outdoor cooking

Turn up the heat

Veg. Fish. Pineapple. What's today's special? Get cooking outdoors with a barbecue that's right for you. You'll find barbecues, carts and kitchen islands to store oils and herbs close at hand and have dishes and bowls ready for serving — straight from the grill to the table. With new GRILLSKÄR series you can even build a complete outdoor kitchen to also do the clean up afterwards, just like your indoor kitchen. The barbecues have smart features like built-in thermometers, high-grade stainless steel cooking grates, pull-out ash trays and heat-insulated handles.

Go classic with charcoal

A charcoal barbecue provides extra smoky flavor loaded with that traditional feel. Using charcoal or briquets, you can create a hot zone for direct cooking and a cooler zone for indirect cooking. You can even bake, use a wok or cook pizza. In general, charcoal barbecues can reach higher temperatures than gas but take longer to reach cooking temperature. We recommend

that after lighting you wait 30-40 minutes — or until the coals are covered with gray ash — before putting on your food. You can regulate the overall temperature using the vent on the hood and on the front of the barbecue. When you're done, put out the coals by closing the hood and vent.

Good to know

1. The built-in thermometer on the hood helps you check the temperature during grilling — without having to lift the hood.
2. To get the desired grill temperature you can regulate the air flow by adjusting the stainless steel vent on the hood and on the front of the barbecue.
3. The cooking grate is durable and rustproof, as it is made of high-grade stainless steel.

4. Heat-insulated handle in stainless steel.
5. The ash tray can be pulled out, so it's easy to empty the ashes once you have finished grilling.
6. On the shelves under the grill there is space for accessories, utensils, serving platters and other things you need in order to serve smoking hot food directly from the grill to the table.

GRILLSKÄR outdoor kitchen

With the flexible modules in the GRILLSKÄR series you can customize your own outdoor kitchen with plenty of storage and an efficient workspace to prepare food, cook it and clean up afterwards. You can build in a

straight, L or U shape. Maybe you can even fit a kitchen island? Unleash your creativity and create your own outdoor dream kitchen with below units or choose a ready-made combination.

GRILLSKÄR units

GRILLSKÄR Charcoal grill with cabinet Distribute charcoal or briquettes in the grill to create a hot zone for direct cooking or a cooler zone for heat retention for when you want to grill food with different cooking times. Heat-insulated handles. Stainless steel. Requires assembly. W24×L33½×H44¾".

GRILLSKÄR Door/side units/back By mounting these doors with back/side panels on GRILLSKÄR kitchen island and sink unit, you transform the open shelves into closed cabinets for your outdoor kitchen. Your utensils, serving platters and bowls are protected behind the doors and are ready to use for the next BBQ. The doors close tightly and are kept closed by a magnetic lock. Stainless steel. Requires assembly. L33½×W24×H36¼".

Black 104.714.48

GRILLSKÄR Sink unit If you want running water outdoors, just connect the sink unit to a clean garden hose. Perfect to have close to the grill so you can prepare food and place dirty bowls, plates and knives in the sink bowl to keep the work surface free. Just as you do in your indoor kitchen. There is plenty of space on the shelves for barbecue tools and bowls. To be completed with a faucet of your choice approved for outdoor use, sold separately. Stainless steel. Requires assembly. L33½×W24×H36¼".

Black 704.896.62

GRILLSKÄR Kitchen island shelf unit This kitchen island gives you extra storage space and a good work surface where you can prepare food before it's time to put it on the grill. On the shelves there is plenty of space for plates, glasses, utensils, oils and other things you need for the BBQ. The movable shelf is made of steel and has a durable, powder-coated surface that is easy to wipe dry. Stainless steel. Requires assembly. L33½×W24×H36¼".

Gardening

Grow your own

Plants make people happy and improve your general well-being. From a small window to a big backyard, you can grow plants anywhere. We have lots of pots to choose from, including several made for indoor and outdoor use. Necessities like gardening tools and spray bottles help you tend to your garden — and greenhouses, plant stands, trellises and more can maximize your growing area. If you want greenery that's as effortless as can be, fake it with our lifelike FEJKA artificial plants and flowers that last and last. When you're ready to get growing, remember patience is part of the process, too.

Outdoor storage and organizing

Contain the clutter

Make more room to enjoy the outdoors. To hold anything from cushions and dishes to toys and sports equipment, little additions like hooks or a box can have as much of an impact as larger shelving units, cabinets, storage benches and carts. Open shelving units keep things readily accessible, while closed cabinets, storage benches (that double as seating) and TOSTERÖ storage bags and box shield stuff from the elements. Storage can't hold the nice weather, but it can help you spend more time having fun.

Outdoor laundry

Hang dry, hang out

Chances are, you would rather be relaxing, but sometimes your outdoor area is for laundry duty, too. When that's the case, maximize your space! Whether you need an extra wide drying rack or one that folds up flat, we have different sizes and shapes to suit your needs. With baskets and hangers, your outdoor space can turn into a one-stop drying spot. Outdoor drying is gentle on clothes and textiles, which helps them last longer. Thanks to the wind and sun, your electric bills are lower, too.

Maintenance

Easy-care furniture materials

Aluminum, plastic, plastic rattan and steel are maintenance-free outdoor furniture materials. Just make sure to keep the pieces clean with a mild soapy solution. Cover or store them away at the end of the season in a cool, dry place like a garage, carport or basement — especially plastic and plastic rattan pieces that can crack in freezing temperatures.

Little-extra-care furniture materials

Acacia, eucalyptus and other solid woods usually require a little care from time to time. Clean with a mild soapy solution, cover them when not in use and at the season's end, cover or store them away in a cool, dry place indoors. All our wooden outdoor furniture is pretreated with stain or paint. We recommend restaining to prevent cracking and extend its lifetime. How often you restain depends on location, usage and exposure to the elements. For example, furniture in open air needs restaining when rain drops are absorbed instead of forming small beads. If painted furniture begins to flake or look worn, repaint or touch up with paint for outdoor use.

Care for umbrellas

Fold your umbrella when not in use, so it will be sturdier against wind. Umbrellas typically need a thorough cleaning only once a year. Follow the wash label. We recommend protection from dirt, dust, pollen and rain with a cover like TOSTERÖ and storing it in a cool, dry place indoors. Ensure it is completely dry before covering.

Care for cushions and pads

To extend the life of your outdoor cushions and pads, clean them regularly. Follow the wash label. We recommend storing them away when not in use, preferably in a cool, dry place indoors. TOSTERÖ storage bags and box helps keep them in shape. Ensure the cushions are completely dry before you close the bag or box.

Protect your outdoor pieces

With a little help from you, your outdoor furniture can have an extended life. In general, clean outdoor furniture regularly and avoid leaving it outdoors

unprotected more than necessary. If possible, use a waterproof cover like TOSTERÖ and store in a cool, dry place indoors when the season is over.

VÄRDA Wood stain Outdoor. 17 oz. Coverage 108 sq.ft. To add shine and protection but no color we recommend colorless VÄRDA wood stain. To refresh the color we recommend VÄRDA wood stain with pigment.

Made outdoor strong

When you're spending time outdoors, we want you to daydream, chit-chat, cat nap and savor delicious flavors. We don't want you to worry about the quality of your outdoor furniture. We've done all the thinking and researching for you, so your pieces will have long lifetimes. From choosing durable materials and adding extra protection against the elements, we treat every outdoor piece like we were bringing it home — in every kind of weather! Read more about our outdoor materials below.

Metals

All metal used in our outdoor furniture withstands rain, snow, low and high temperatures. Lightweight aluminum is a very durable, rustproof material even without any additional treatment. Steel is durable and protected against rust by a powder-coating of paint. Galvanized steel is coated in zinc for protection against rust, and we apply a powder-coating of paint, too.

Plastics

All our plastic and plastic rattan outdoor furniture will look fresh and new for longer because it is both UV stabilized and fade resistant. Plastic and handwoven plastic rattan are durable and withstand rain, snow, low and high temperatures. In freezing temperatures, they can weaken and are not recommended for use.

Solid woods

For maximum protection, all our outdoor wooden furniture is pretreated with wood stain. By restaining now and then you can enjoy it for many years. Acacia and eucalyptus are durable, sturdy hardwoods because of their high density of wood fibers.

Textiles and sunshine

To prevent as much fading as possible from the sun's UV rays, we introduced a production technique, called dope dyeing, for solid-colored fabric cushions. During the process, the color pigments become part of the fiber, improving color fastness. This reduces water consumption by 80% and dyestuff consumption by more than 20% compared to traditional dyeing techniques.

Textiles and rain

We don't use any non-degradable, perfluorinated chemicals on our umbrellas and outdoor cushions, which is better for you and the environment. As for water-repellent outdoor cushions, just shake off water from a light rain. If the forecast calls for weather heavier than a light, passing rain shower, we recommend putting your dry umbrella and cushions in our TOSTERÖ covers, bags and storage box. They'll be better protected, and you'll be able to enjoy them for more sunny days to come!

Furniture for you and the environment

Wood is a fantastic material that we've used since the start of IKEA in the Småland forests. We're a global company with clear rules for all wood we use and strive to ensure that our wood comes from more sustainable sources — certified or recycled. For the ÄPPLARÖ series in solid acacia, and all other outdoor furniture, we've already achieved this goal. They are robust pieces of furniture which have been produced in a way that is sustainable for people and the environment.
